

AUSTRALIAN MANUFACTURING WEEK

AMW2026

BRISBANE

EXHIBITION DIRECTORY

AMW is an **AMTiL** initiative

WELCOME

Welcome to Australian Manufacturing Week

On behalf of AMTIL's staff and board, I am delighted to welcome you to Australian Manufacturing Week (AMW). Thank you for joining us and for being part of this important gathering of Australia's precision manufacturing community.

This year marks a significant milestone for AMW as we bring the event to Queensland for the first time. Queensland's manufacturing sector continues to grow in capability, ambition and global relevance, and we are proud to host AMW here and to connect local industry with peers, partners and technologies from across Australia and beyond.

Australian Manufacturing Week has, for more than 25 years, been Australia's leading meeting place for precision manufacturers and adjacent industries. Over that time, AMW has built a reputation for delivering unparalleled access to the latest manufacturing technologies, machinery and solutions. It is also known for a strong speaker program that shares practical insights, real-world experience and forward-looking perspectives to help businesses adapt, innovate and grow.

Equally important are the networking opportunities that AMW creates. Whether you are reconnecting with long-standing partners or meeting new ones for the first time, the conversations that take place here often lead to collaboration, capability-building and long-term growth.

I would also like to sincerely thank our sponsors and exhibitors. Their ongoing support and investment make Australian Manufacturing Week possible, and their commitment reflects the strength and resilience of our industry.

AMTIL exists to support Australia's manufacturing sector. If you have any questions, need assistance, or would like to learn more about how we can help your business, please visit the AMTIL stand at the front of the hall and speak with our team.

Thank you again for attending. I wish you a productive, insightful and rewarding Australian Manufacturing Week.

Lorraine Maxwell
Chief Executive Officer

AMTIL

Welcome to the Sunshine State.

For the first time ever, I am pleased to welcome you to Australian Manufacturing Week in Queensland, an important event that showcases the innovation, capability and ambition driving our manufacturing sector forward.

Over the next three days, you will see Queensland manufacturers doing what they do best - solving problems, making world-class products and backing themselves in competitive global markets. You'll also have the chance to connect with partners and see firsthand why Queensland has a growing reputation as a leading manufacturing hub in Australia.

And the numbers back it up.

Manufacturing contributes \$29 billion to our economy and supports more than 171,000 jobs, including 76,700 in regional Queensland. Queensland accounts for around 20 per cent of Australia's manufacturing workforce and we're the only state to record sustained growth in manufacturing employment over the past decade.

We're determined to see these numbers grow, and we're determined to make Queensland the most attractive state to invest in by sending a clear message to partners across Australia and around the world that Queensland is open for business.

So, if you're not currently operating in Queensland, my question is simple: why not and what can we do to change that?

We recently released our *Transforming Queensland Manufacturing Strategy 2025–2030* and Action Plan – a clear pathway to lift productivity, drive innovation and expand access to global markets, to put Queensland manufacturers at the cutting edge.

And at Australian Manufacturing Week, Queensland is putting our commitment on the table. Come and visit our stand, talk to the team and find out how we can help you invest, expand and get moving.

This event isn't just about the latest technology and machinery, as important as that is.

It's also a platform to attract investment, strengthen supply chains and grow your business.

And the best place to do that is in Queensland.

With our position in the Asia–Pacific, Queensland-based businesses are well placed to design and develop sophisticated products that add value at every stage of the global supply chain.

And with the 2032 Olympic and Paralympic Games on the horizon, we are embracing opportunities that will make Queensland the state where businesses thrive and communities grow.

From food and fibre processing to defence vehicles, aerospace components, and the equipment that powers our resources and critical minerals sectors, Queensland's manufacturers are the most innovative in the world.

And we're embracing a whole-of-government approach to supporting the manufacturing industry, developing education pathways and creating more opportunities for skills training to ensure Queensland is at the forefront of modern methods of construction.

With the right support, collaboration and ambition, you can meet today's challenges and seize tomorrow's opportunities – and that's what Queensland offers.

I hope the next three days are full of productive conversations, practical ideas and real opportunities.

And by the end of Australian Manufacturing Week, you'll understand why Queensland is the place to be, because Queensland is open for business and we make it happen.

Dale Last MP

Minister for Natural Resources and Mines,
Manufacturing, and Regional and Rural Development

Queensland
Government

9:00am to 5:00pm

Wed 13th May 2026
9:00am to 6:00pm

Thu 14th May 2026
9:00am to 4:00pm

ADMISSION

Admission at Australian Manufacturing Week (AMW) is free to trade personnel. It is a condition of entry that all visitors are registered. A registered name badge and photo identification are mandatory for entry to the exhibition and must be carried with you at all times whilst at the event.

Students or children under the age of 15 will not be admitted unless accompanied by an adult. Groups of students will not be admitted except by prior arrangement with the AMW organisers.

All visitors must abide by the AMW Conditions of Entry and Code of Conduct while attending the exhibition, which can be found at <https://australianmanufacturingweek.com.au/visit2026/>

The Organiser (AMTIL) reserves the right, with reasonable cause, to refuse entry or remove any person, including any person who causes a disturbance, or refuses to comply with reasonable requests made by the Organiser.

CANVASSING

Canvassing for business by any unauthorised persons is strictly prohibited. The display and distribution of printed or other materials by non-exhibitors is not permitted.

CUSTOMER SERVICE DESK

The AMW customer service desk is located at stand # 1700 towards the front of the hall, refer to the floorplan for the location.

HEALTH & SAFETY

The health and safety of AMW visitors and exhibitors is of paramount importance. By attending AMW, you agree to follow all current health & safety protocols as communicated by AMTIL and venue staff, official contractors, relevant Government Departments and Health Authorities.

IMAGE POLICY

No photography or videography is allowed within the event precinct unless pre-arranged with the Organiser. Your attendance at AMW may be digitally recorded through photographs and/or video recordings. Images may be used on AMTIL's website, publications, social media or videos. By attending AMW you agree to these terms. If you do not wish your image to be published, please notify staff before the event.

VENUE

Brisbane Convention & Exhibition Centre (BCEC)
Merivale St, South Brisbane QLD 4101
Travel, parking and public transport information is available at <https://bcec.com.au/visit/>

VENUE EMERGENCY PROCEDURES

In the event of an emergency please remain calm and listen for instructions and alarms.
In any medical emergency, please notify event security at the entrance doors immediately. Venue emergency information is available at <https://bcec.com.au/organise/welcome/>

PR Newswire

Australian Manufacturing Week showcases 6 Product Zones

MACHINE TOOLS

The Machine Tools Zone is specifically targeted at the metalworking, machine tool and ancillary market in Australia. Machine Tools covers advanced manufacturing products and processes including:

- CNC Machinery, Lathes, Mills
- Contract Manufacturing/Precision Machining
- Cutting Tools, Tooling and Tool Holding
- Forming and Fabricating Machines
- Plasma, Laser, Waterjet and Ultrasonic Machines
- Ancillary equipment suppliers

Sponsored by

ADDITIVE MANUFACTURING

The Additive Manufacturing Zone will be showcasing the most advanced technologies within this sector. The various techniques within Additive Manufacturing include Stereolithography, Selective Laser Sintering, Material Extrusion, Sheet lamination, Binder jetting, Cold Spray processing, Material jetting, Directed energy deposition, powdered fusion, VAT photopolymerization and wire arc manufacturing (WAAM). Many of these will be represented within the Additive Manufacturing Zone.

Sponsored by

AUSTRALIAN MANUFACTURER'S PAVILION

The Australian Manufacturer's Pavilion is where AMW celebrates the very best in Australian manufacturing, providing a showcase for some of this country's most accomplished component manufacturers, precision engineering firms, toolmakers, advanced manufacturers, and general engineering companies.

Sponsored by

MANUFACTURING SOLUTIONS

The Manufacturing Solutions Zone offers optimised solutions to the most common challenges experienced by manufacturers. From materials handling and warehousing to integrated manufacturing and safety solutions. The manufacturing industry would not be able to function effectively without a diverse array of ancillary technologies and support services.

Sponsored by

ROBOTICS & AUTOMATION

The Robotics & Automation Zone will feature the latest state-of-the-art equipment and processes for the optimisation of manufacturing operations. Robots are practical technologies, with artificially intelligent software brains, created and designed by engineers to refine, manufacture, and move Australian manufacturing ahead.

Sponsored by

WELD & AIR SOLUTIONS

The Weld & Air Solutions Zone will highlight advanced welding and air technology products and processes and provide high-quality interactive experiences that demonstrate developments and applications in these sectors. Today, robot welding is commonplace in industrial settings, and researchers continue to develop new welding methods and gain greater understanding of weld quality. Additionally, many applications in metals manufacturing processes need compressed air for filtration, aeration, drying and instrumentation purposes.

A proven major attraction at Australian Manufacturing Week

The Future Solutions speaker sessions have been hand-picked to cater to the varied needs of the industry to discuss the challenges and stay abreast of the latest trends.

DAY 1: TUESDAY 12 MAY 2026

9:15am - 9:30am	WELCOME TO COUNTRY CEREMONY AND DIDGERIDOO PERFORMANCE
9:30am - 9:40am	AMW 2026 OFFICIAL OPENING ADDRESS - QUEENSLAND, MADE FOR MANUFACTURING Graham Fraine, Director-General, Department of Natural Resources and Mines, Manufacturing and Regional and Rural Development
9:40am - 10:00am	THE CHANGING 'FACE' AND FUTURE OF MANUFACTURING Lorraine Maxwell, Chief Executive Officer, AMTIL
10:00am - 10:10am	SUPPORTING QUEENSLAND MANUFACTURERS Jason Kidd, Deputy Director-General, Manufacturing and Regional and Rural Development
10:10am - 10:30am	LEADING AUSTRALIAN MANUFACTURING THROUGH A VUCA WORLD Shay Chalmers, Chief Executive Officer, GLT Trailers
11:00am - 11:30am	COMMBANK ECONOMIC UPDATE Trent Saunders, Senior Economist, CommBank
12:00pm - 12:30pm	UNLOCKING AUSTRALIA'S ADDITIVE MANUFACTURING POTENTIAL Simon Marriott, Managing Director, Additive Manufacturing CRC
1:00pm - 1:30pm	AI WITHOUT ILLUSIONS: SEPARATING FACTORY FLOOR REALITY FROM HYPE Mikhail Golovnya, Senior Advisory Data Scientist, Minitab Pty Ltd
2:00pm - 2:30pm	BEYOND THE HYPE: THE REAL STORY OF AI ADOPTION IN AUSTRALIAN MANUFACTURING Cori Stewart, Founder and CEO, ARM Hub
3:00pm - 3:30pm	EXPLOITING EXTENDED REALITY TECHNOLOGY FOR GAINS IN DESIGN & MANUFACTURING Benjamin Breitenstein, Director / Industrial Designer, Composit Pty Ltd
4:00pm - 4:30pm	INNOVATION THROUGH DESIGN AND ADVANCED MANUFACTURING - A QUEENSLAND CASE STUDY Matthew Ferguson, Business Development Manager - Quarries and Aggregates Australasia, Multotec Australia (Pty) Ltd

DAY 2: WEDNESDAY 13 MAY 2026

9:15am - 9:35am	MANUFACTURING IN AUSTRALIA: PERFORMANCE, CHALLENGES AND OUTLOOK David Martin, Director Emerging Industries and Innovation, Australian Industry Group
9:35am - 9:55am	NAVIGATING MANDATORY CLIMATE REPORTING AND YOUR FIRST SUSTAINABILITY REPORT Samantha Zebrowski, Principal, Business Advisory, William Buck
9:55am - 10:15am	EMERGING ENERGY TRENDS Paul Morrissy, Senior Manager Renewable Solutions, RACV Commercial Energy Solutions
10:15am - 10:35am	FUTURE OF TRADES IN MANUFACTURING Nathan Edwards, Senior Data Strategist, Manufacturing Skills Queensland
11:00am - 11:30am	IMPROVING WORK HEALTH AND SAFETY AT MANUFACTURING WORKPLACES IN QUEENSLAND Manoharan Raghavan, Principal Advisor, Work Health Design Unit, Office of Industrial Relations
12:00pm - 12:30pm	THE CASE FOR SOVEREIGN CAPABILITY: HOW AUTOMATION AND ROBOTICS SECURE THE FUTURE OF MANUFACTURING Matthew Fisher, Managing Director, Autoa Pty Ltd
1:00pm - 1:30pm	IMPLEMENTING AUTOMATION: CASE STUDIES Richard Sulman, Managing Director, Elite Oceania Pty Ltd
2:00pm - 2:30pm	INTRO TO COLLABORATIVE ROBOTS Graham Williams, Regional Manager Automations, Vectis Automation
3:00pm - 3:30pm	FUTURE-PROOFING AUSTRALIAN MANUFACTURING WITH ERP AND PRODUCTION PROGRAMMING Inigo Villoch, Software Solutions Consultant, Bystronic Australia Pty Ltd
4:00pm - 4:30pm	THE INTELLIGENCE LAYER: LEVERAGING AI AND RAD TO AUTOMATE, INTEGRATE, AND SCALE THE MODERN MANUFACTURING BUSINESS Ty Osborne, Chief Technology Officer, SQiBLE

DAY 3: THURSDAY 14 MAY 2026

10:00am - 11:00am

MANUFACTURING INSIGHTS FROM COMMBANK

Liz Huxley, General Manager, CommBank; Belinda Harris, General Manager, CommBank; Andrew Squires, Executive Manager, Commercial Banking, CommBank

12:00pm - 1:00pm

MANUFACTURING GROWTH ENGINE: FUNDING, FORECASTING & FUTURE WEALTH WITH WILLIAM BUCK

Berrin Daricili, Principal, R&D Tax Incentive & Grants, William Buck; Jeremy Raniti, Principal, Business Advisory, William Buck; Scott Montefiore, Partner, Wealth Advisory, William Buck

2:00pm - 3:00pm

PRINT YOUR PROFITS: MAKING MONEY FROM ADDITIVE MANUFACTURING IN QUEENSLAND

Matthew Wall, Additive Manufacturing Lead, Boeing Aerostructures Australia and Chair, AAMN Advisory Panel; Lianne Kelly, Head of Sales - Additive Manufacturing, Invenio 3D and AAMN Committee Member

Ensitech

Stand No. 2630

Ensitech is the Australian manufacturer and inventor of the TIG Brush® Stainless Steel Weld Cleaning System, which has revolutionised weld cleaning and surface finishing. The TIG Brush system uses a proprietary electrochemical process, combining NSF approved, low-toxicity fluids with a patented power supply and unique brush design to produce superior results. It provides one-step cleaning and passivation (tested to international standards), requires little user training, and gives welders complete control over the surface finishing of their work.

Manufacturing Industry Skills Alliance Stand No. 1460

The Manufacturing Industry Skills Alliance (Manufacturing Alliance) is the Jobs and Skills Council (JSC) for the manufacturing sector. Manufacturing Alliance works closely with employers, unions, governments and training providers to identify workforce capability and ensure Australia's manufacturing workforce has the skills needed to compete, innovate and grow. Manufacturing Alliance also supports a responsive training system that aligns qualifications with emerging technologies and workforce needs so that people entering or transitioning into manufacturing roles are equipped with relevant, industry-recognised skills.

Can you see what's really happening in your factory?

Most manufacturers can't — hidden electrical issues, energy waste, and unexplained downtime stay invisible when critical plant data lives in separate systems and teams drown in disconnected data.

NHP connects the full plant-floor, so you can:

 reduce unplanned downtime

 cut energy waste

 detect issues earlier

 modernise ageing plants

Visit NHP this Australian Manufacturing Week to discuss the best solution for you.

**Theo Laser Inc/
Maxphotonics Co., Ltd
Stand No. 2600**

THEO Laser Inc. launched in 2023, backed by Maxphotonics, specialises in advanced, handheld fiber laser welding solutions designed for speed, precision, and ease of use. THEO focuses on transforming traditional welding with compact, air-cooled, and energy-efficient tools (like the MA1 series) that are up to 4x faster than TIG welding.
